Re: Larimer County's Middle Bald Mountain Communications Facility NEPA process reactivation

Dear Kevin:

The Board of County Commissioners recently voted to resume work on the Middle Bald Mountain NEPA process. We would like you to reactivate the processing our application for the Middle Bald Mountain Communications facility. Please let us know what our next steps will be to move forward with this process. We look forward to your assistance in developing the statement of work and deliverables we will need in order to contract an environmental consultant. We will also need USFS assistance in developing the applications for Special Use Permits for engineering studies. Please contact Dave Rowe (Larimer County Systems Administrator, Microwave: 970-498-5398) to coordinate next steps and answer any questions. We look forward to working with you and your staff on this effort.

Thank you.

Sincerely,

Greg Vickerman  
Director, Technology Services Department  
Larimer County Government
