The Larimer County Sheriff's Office team along with the United States Department of Agriculture team reviewed the proposals and recommends accepting the proposal from AECOM in the amount of \$259,612.50. Based on the Forest Service's selection criteria of cost, capability and technical evolution, experience and past performance with National Environmental Policy Act (NEPA) processes, and the creation of compliant Environmental Impact Statements and related documents, the Sheriff Office and the USDA have determined that AECOM should provide the best value for this project.
