TO: Mark Peterson, County Engineer
FROM: Heather MacMillan, Purchasing Agent I
DATE: 11/26/13
SUBJECT: P13-15, RE-SOLICITATION of Flood Recovery & Non-Project-Specific Bridge-Roadway Design & Construction Management Services

Transmitted for your review and recommendation, are the sixteen proposals received to consider contracting with a firm or firms to perform flood recovery & non-project-specific bridge-roadway design & construction management services. Please fill in this form and return it to me via interoffice mail or email.

The following criteria must be used to evaluate the proposals:

1. Understanding & Completeness
2. Firm Capacity
3. Firm Availability
4. Key Staff Members' Experience and Qualifications
5. Management Qualifications & Financial Capability

This document will be considered a public record and open to inspection. The individual committee score sheets, comment sheets and other evaluation notes are DELIBERATIVE PROCESS records and not public records. Please keep these documents in your files.

Explain why you want to award the work to a particular vendor and the dollar amount of the award: Based upon the experience of the firms in design of roadways and bridges combined with the experience and capabilities of key staff members, the Evaluation Committee has selected the five top-scored firms for award; AVI p.c., Interwest Consulting Group, Alfred Benesch & Company, HDR Engineering Inc., and AECOM Technical Services, Inc., in the estimated first-year total amount of \$1,000,000.00. Due to the need for expedited repairs to flood damaged areas and timelines imposed by the use of federal disaster funds to design and construct the repairs, the workload is estimated to be steady for two to three (2-3) years, after which the demand for consultant services may taper off and less work will be anticipated.

THIS RECOMMENDATION MUST BE SIGNED BY THE DEPARTMENT HEAD
