Dear Mr. Wohlgenant and Mr. Weinstein:

By this letter, Larimer County officially requests technical advice and assistance from The Trust for Public Land in connection with our efforts to renew a program to finance land conservation and recreation through a potential ballot measure. As part of your advice and assistance, we understand you may undertake feasibility research, conduct a public opinion survey, and develop strategies for our consideration.

We are interested not only in the factual information that you can provide to us, but also your organization's opinions and recommendations on public funding measures available to us and strategies to enact such measures. This would include understanding the public's priorities and attitudes regarding land conservation and other issues currently facing Larimer County and how the public would respond to different methods of presenting those issues. Although your submissions will be directed to the attention of the Open Lands Manager, Kerri Rollins, I understand that your responses to this request will be for the general use of the County.

This request will continue in effect for any advice you offer or presentations you submit related to such matters. In addition, we would like to take this opportunity to request that you continue to be available to provide technical advice and assistance in this area and on related matters in the future.

Thank you for your organization's contribution to the work of Larimer County.

Sincerely,

Lew Gaiter III
County Commissioner
District 1

Steve Johnson
County Commissioner
District 2

Tom Donnelly
County Commissioner
